METHODOLOGY

How this report was prepared

This report uses Temporary Foreign Worker Program work-permit-holder data published by Immigration, Refugees and Citizenship Canada. Records are filtered by intended destination, published program category, and year.

Annual totals, year-over-year changes, provincial rankings, program distributions, summary statistics, and analytical highlights are calculated automatically from the normalized monthly source records.

Important note

The figures represent work-permit holders whose permits became effective during the selected period. They do not represent positive Labour Market Impact Assessments, jobs filled, or the number of people currently present in Canada.

ABOUT DATA EXPLORER

Public data, made easier to explore

Data Explorer is a collection of interactive tools that transform official public datasets into searchable charts, summaries, analytical reports, and downloadable documents.

The information presented in this report is derived from published source data. Charts, calculated values, and analytical highlights are generated automatically from normalized records while preserving the meaning of the original dataset.
