METHODOLOGY

How this report was prepared

This report uses Temporary Foreign Worker Program work-permit-holder data published by Immigration, Refugees and Citizenship Canada. Records are filtered by intended four-digit NOC 2011 occupation, province or territory of intended destination, and year.

Annual totals, year-over-year changes, provincial rankings, summary statistics, and analytical highlights are calculated automatically from normalized monthly source records.

Important note

The figures represent work-permit holders according to the year in which their permits became effective. They do not represent valid permit holders on December 31, people currently present in Canada, positive Labour Market Impact Assessments, or jobs filled.

ABOUT DATA EXPLORER

Public data, made easier to explore

Data Explorer is a collection of interactive tools that transform official public datasets into searchable charts, summaries, analytical reports, and downloadable documents.

The information presented in this report is derived from published source data. Charts, calculated values, and analytical highlights are generated automatically from normalized records while preserving the meaning of the original dataset.
